A ROYAL WHEEL

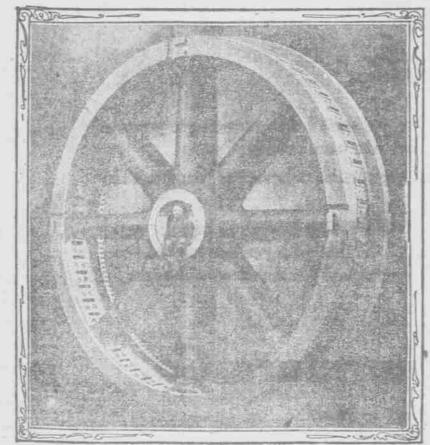

Table giguntle wheel shown in this picture was recently delivered to a Ger man electric works as an inductor wheel by the Galsenkirchener Gussstahl u. Eisenworke, that is to say by the Poured Steel and Iron Works of Gelsenkirchener. It is more than 22 feet in diameter and weighs over 143,000 pounds. A good idea of the great size of the wheel is given by the appearance of the workman seated comfortably in the hub.

Railroad Shares, Sold Heavily in London, Show Losses; Prices Fall.

Note-Quotations reflect closing sales Friday, March 5.

New York, March 5.—Heavy selling of a few stocks caused general depression to-day. Chesapeake & Chio's Gedine reached five points by acon, and Baitimore & Chio was down 1%. Both of these stocks were sold heavily by London.

The appearance of further unfavorable relifered reports for January and the poor showing in gross made by various lines in the last week of February also weakened the railroad list, which relatively was heavier than the industrials.

Prices foll away steadily until there were numerous losses. General Motors lost four points and Kansas and Texas preferred nearly as much, the latter stock reaching the lowest figure since 1998.

Bonds were easy.

The market closed stoady. The day's low prices were made in the final sale of the hour, when St Paul simuped at a rapid rate and lost four points. The stock was sold on allegations by an examiner of the interstate commerce commission that irregularities had been discovered in the company's financial statements.

Offerings Prove to Be Light and Scattered, and Prices Quickly Rally.

Chicago, Iil., March 5.—Wheat developed strength today in spite of weak cubica. The market at first was susier in sympathy with Liverpool, but offerings proved to be light and scattered. Prices railled quickly on buying due somewhat to the fact that receipts northwest showed an unexpectedly sharp failing off. Opening figures, which varied from last high's level to it to it of lower, were followed by a general advance. The close was steady, it to it to it to one higher.

The close was steady, is to it to it to not higher.

In the corn erowd, predictions that receipts during March and April would not be more than a third of the amounts a year ago helped to bring about an uptura. Quotations after starting it off to be up, made an all around ascens.

The close was steady, a shade to it above last night.

Talk of Canadian competition had some effect on the oats market. Firmness of other cercals, however, checked the beggs.

Higher prices for home gave provisions a lift. First sales were 31 to 5c higher and there was a subsequent further gain.
